

# Museum Patron Technology Use

Supported by Maru/Blue

## **Aims at:**

Providing Ontario museum industry with latest data regarding consumer behavior and make recommendations on products

## **Survey design**

By sorting respondents into different observation groups, we will explore consumer behavior and product preference patterns behind each of them and provide practical recommendations to the museum industry on production amelioration and consumer behavior changing trends.

The respondents are divided into two observation groups

Group 1 ~21% Frequent goers went to museums twice or more in the past year

Group 2 ~79% Infrequent goers went to museum only once or less in the past year

# MOTIVATIONS

## EDUCATION

The main reason for going to a museums is education. This was the most selected response by the surveyors.

## SOCIAL GATHERING

After Education the second best reason is Social Gathering .

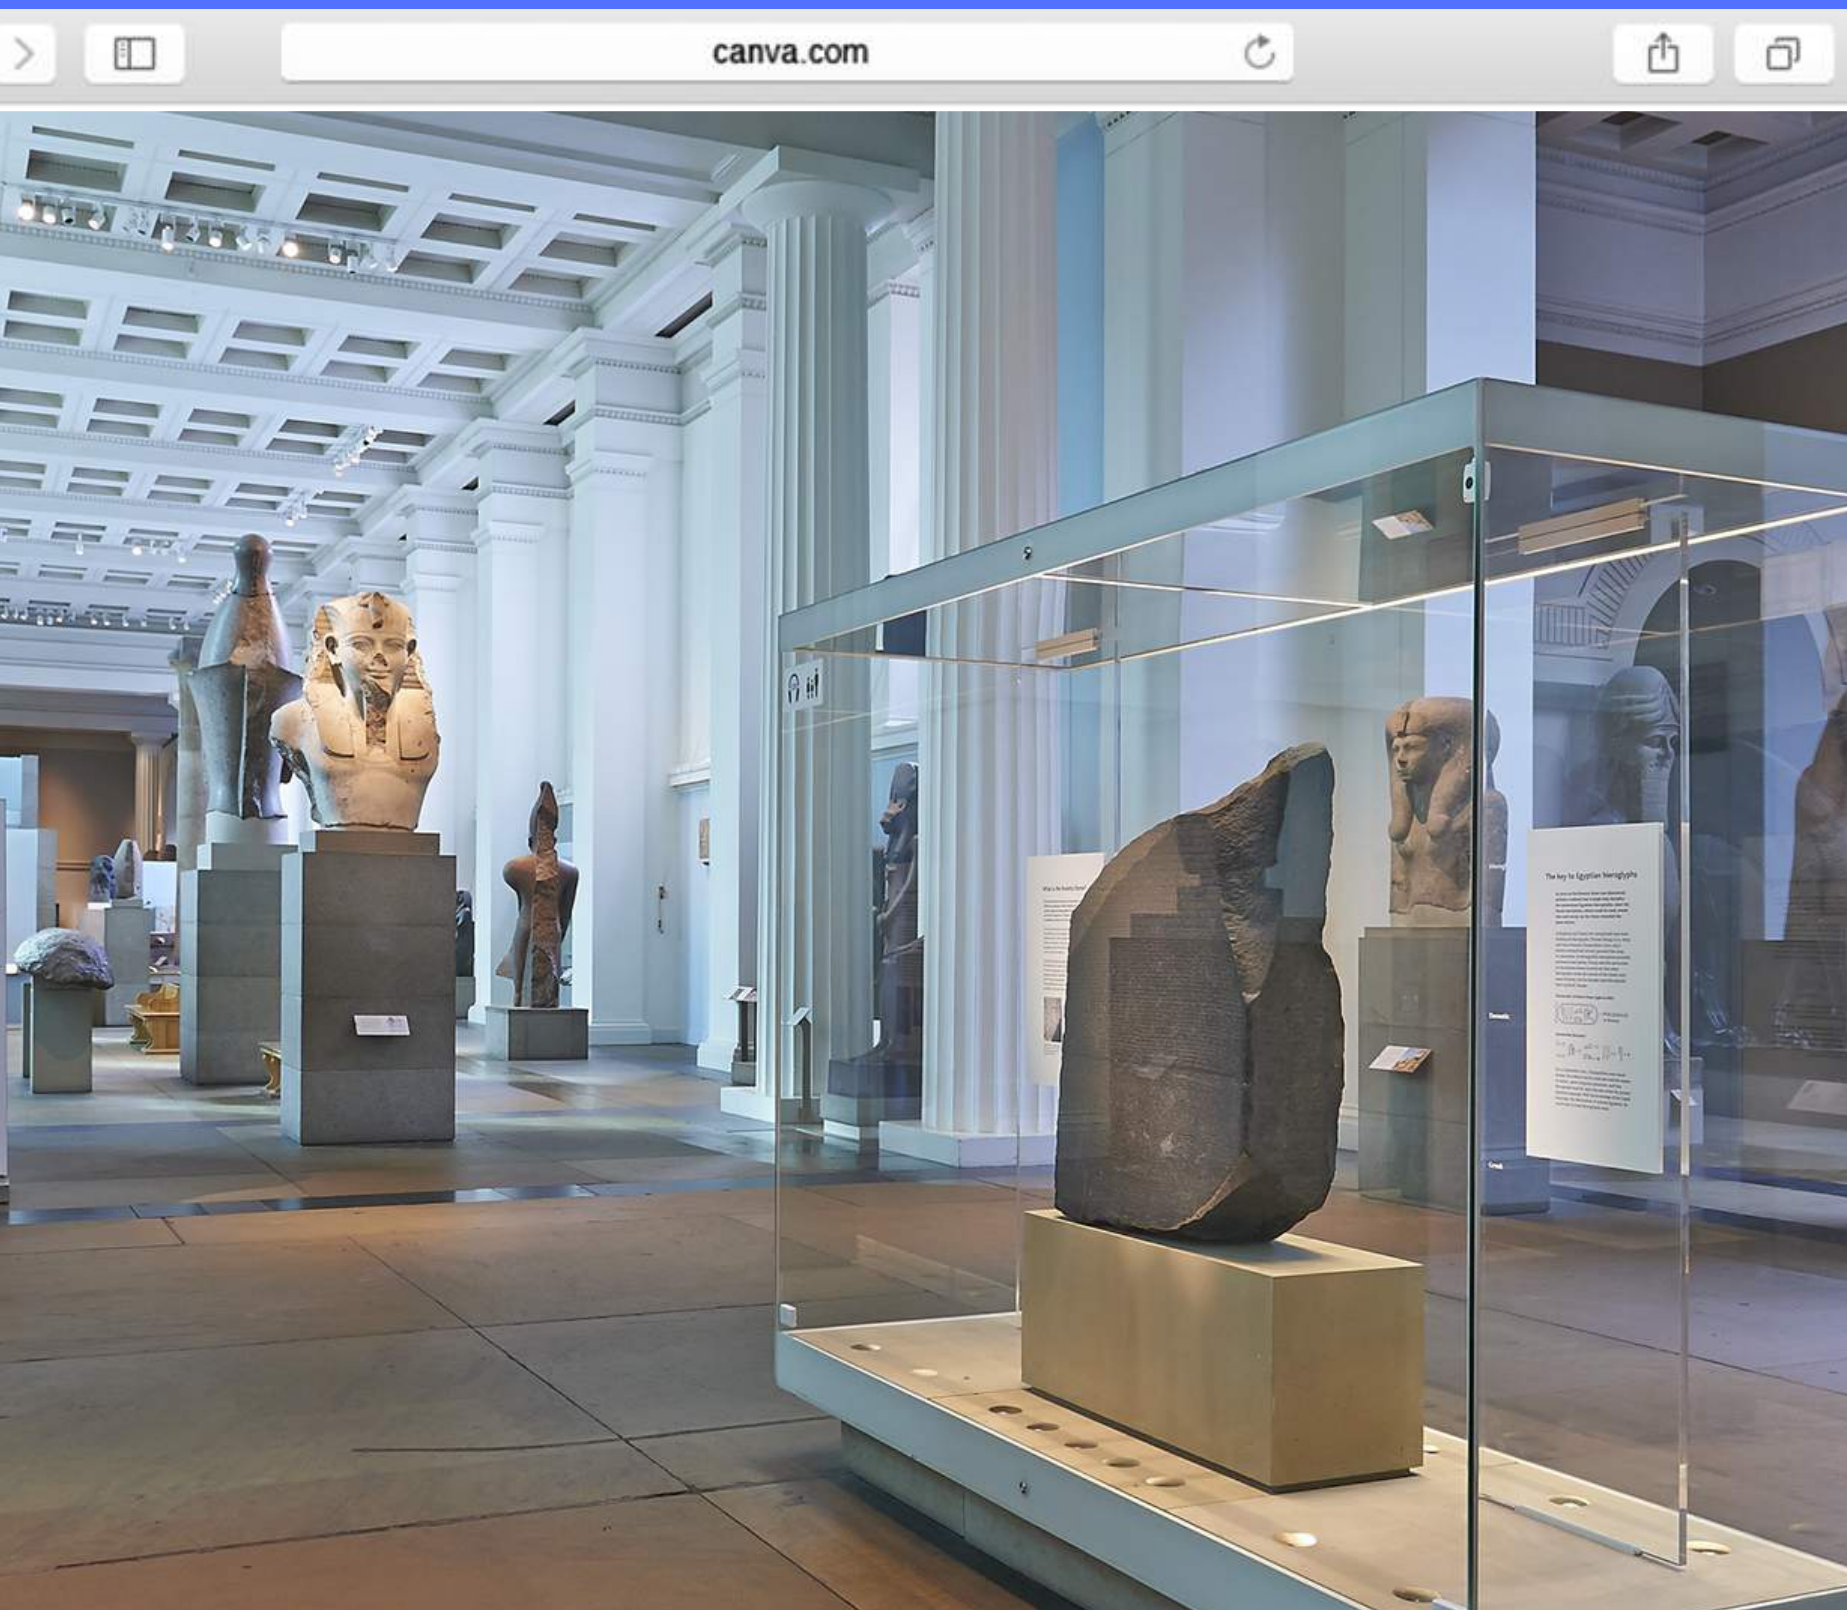

- Both of the groups responded the same response the same. regardless of how frequently they go, anyone who goes to museums wants to learn more.

# "From the comfort of my home!"

Respondent's answer to why they are most satisfied with their museum technology of choice

# Most frequent technology use: Ticket reservations, online exhibits, virtual tours and social media

- Frequent museum goers are more likely to use museum technology
- Each technology saw a usage rate of less than 25% by infrequent museum goers
- Most people don't use a museum app, downloadable activities or live museum streaming

# Technology Museum Goers Preferred

FREQUENT MUSEUM  
GOERS

E-Ticket Reservations  
& Interactive Displays

INFREQUENT MUSEUM  
GOERS

Social Media

Online Exhibits  
Virtual Tours
